

Welcome to Swiss School Bangkok

Celebrating our 50th anniversary in 2013, Swiss School Bangkok is the only international school in Thailand with a curriculum founded upon the authentic values of Switzerland, Germany and Austria. Our proven educational model stands out through its distinctive **Swiss-German Curriculum**, **Leading Education Quality** and strong focus on **Personal Care in Small Classes**. Our students have the choice to select between German and English as their primary learning language while following the same Swiss & German curriculum. With a small average class size, our diverse students are placed at the center of attention. This allows for individualized teaching by highly qualified and experienced expatriate teachers, so your child will become a competent citizen in today's global society.

Graduates from both profiles are awarded with internationally recognized diplomas and certificates. This makes Swiss School Bangkok a prominent gateway to the leading universities around the world.

Why us

Swiss-German Curriculum

- The Bilingual Maturity allows students to develop near-native language skills in German and English
- The curriculum grants smooth re-entry to schools in Switzerland, Germany and other international schools
- The Maturity diploma provides access to leading universities worldwide

Leading Education Quality

- The curriculum is based on the Swiss and German cultures as well as the values of quality, discipline and work ethic
- The teaching and learning approach is holistic
- The classes are taught by certified and experienced expatriate teachers
- Time-limited teaching assignments for expat teachers guarantee an authentic Swiss and German learning environment
- The education quality is regularly monitored by Swiss and German teaching authorities
- Swiss and German government sponsorship provides superior value in tuition

Personal Care in Small Classes

- Small class size places students at the center of their learning
- Individualized teaching and learning is central at all levels of the curriculum
- Caring environment provides a feeling of security and support for the individual student
- Knowledge, skills, and character are enhanced so students become competent citizens of the global society
