

### The window of learning opportunity has just gotten bigger

Celebrating our 50th anniversary in 2013, the Swiss School Bangkok is the only international school in Thailand with a curriculum founded upon the authentic values of Germany, Switzerland and Austria. The school is officially supported by the Swiss and German governments and the learning programmes accredited by their educational authorities.

### One curriculum, two profiles

In the early days, the school was known as 'The German Speaking School', with nearly all students from either Germany or Switzerland. Over time, the school attracted more and more young individuals from diverse backgrounds and, consequently, in 2011 the Swiss School Bangkok opened its English profile.

Today, with an identical curriculum, students now can choose between German and English as their primary learning language. The unique educational model stands out through our distinctive German/Swiss curriculum with a strong focus on leading education quality and personal care in small classes. Our culture and values of quality, discipline and work ethic are combined with leading-edge teaching and learning methods.

### Embracing authentic values, fostering lasting knowledge

Students from more than 15 nationalities embrace a lasting education through a curriculum of holistic learning, multilingualism, individual development and integration.

At the end of their studies, the successful graduates will be awarded with our highly recognised Maturity Diploma, which offers exam-free access to top universities in Germany, Switzerland and Austria. Among those premier institutes are ETH Zürich (Swiss Federal Institute of Technology), École Polytechnique Fédérale de Lausanne, Ruprecht-Karls-Universität Heidelberg, Technische Universität München, Ludwig-Maximilians-Universität München, as well as the University of Zurich and the University of Geneva.

For more information, visit [www.timeshighereducation.co.uk/world-university-rankings](http://www.timeshighereducation.co.uk/world-university-rankings) or [www.topuniversities.com](http://www.topuniversities.com)

In addition to enrolling among top world universities, the bilingual Maturity diploma (German/English) also opens up opportunities to enter universities of applied sciences and other specialised schools as an alternative. This can be particularly interesting to study hospitality management at well-known addresses like Les Roches International School of Hotel Management.
